

SMART CONSTRUCTION Fleet New Feature Release Announcement

App Ver: **5.19.0**

Release Date: **June 2, 2026 (Tue) 18:00–20:00**

Smart Construction Fleet Release

[WEB]

- Added role display on the driving history screen
- Driver daily report can now display operating hours only

[Mobile]

- Improved route deviation alert:
When multiple routes are monitored, alerts for other routes' warning zones are suppressed while the vehicle is on any one of them.

Even without a prior mobile app update, you can continue using the app as before; however, an update is required to use the new features.

Instructions for setting up automatic updates on iPhone are provided at the end of this document. The mobile app will be released to the store **after review approval**.

*The mobile app release timing may vary depending on the Apple Store review status.

Please note that some restrictions will apply to active sites as described below.

Admin Screen or Mobile App	Impact
Admin Screen	Login unavailable
Admin Screen	If logged in, an error will occur at the next server access
Admin Screen	If using Real-time Viewer periodic communication, an error will be displayed on the current screen
Mobile App	Login unavailable
No server downtime for this update	
Mobile App	error will be displayed
Mobile App	If logged in, switching tabs will cause an error
Mobile App	Location data is stored on the device during server downtime. Sent sequentially after downtime ends.
Mobile App	Alert zone entry detection operates normally
Mobile App	Proximity notification zone entry detection does not function properly => Proximity notifications are not triggered (because other vehicle info is not updated)

Scheduled Release (JST): June 2 (Tue) 18:00 - 19:00

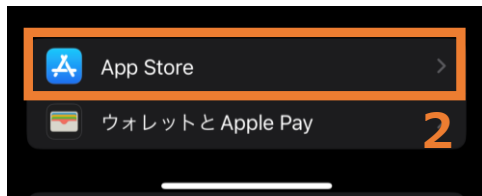

Role is now displayed on the driving history screen.
 When the driving history is downloaded as CSV, role information is now also included.

Appendix

With these settings, the app auto-updates over mobile data when a new version is released.

***On Android, menu options vary by device.**

1. Tap "Settings"
2. Tap "App Store"
3. Turn "App Updates" ON
4. Turn "Automatic Downloads" ON
If this is OFF, auto-update will only run while connected to Wi-Fi
5. Tap "App Downloads"
6. Tap "Always Allow"
7. Setup complete
